**SUBJECT: Bryston Turntable – Swiss Audio Show**

Hi James

Some comments on the new Bryston Turntable at our recent audio show in Switzerland.

The show went very well. I think we had one of the best performance of products, room acoustics and demonstration. And now one step more with Bryston Vinyl.

Here a short statement from our dealer handling the show with us.

Ok the Bryston BLP1 turntable, first thoughts.

I found it to be of good build and up to Bryston quality, after unpacking and fitting a Kiseki Purple Heart I was instantly enthralled at the wonderful full rich soundstage that greeted me, instruments were correctly placed with a full open timbre and sense of timing, as were the vocals. The BLP1 played everything with ease from classical to pop to rock.

I can easily recommend this to my clients and customers as well as live easily with it myself ... a stunning effort for Brystons first turntable ... a classic!
